General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

In lieu of section 7 of the Small Grains Crop Provisions, the end of insurance period for winter-type acreage will be August 31 immediately following planting.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	U.S. Farm Income: \$100,000
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Bradford (015)

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the term "quality" means the quality of the crop as determined by the quality adjustment factors.

For the purpose of this section, the term "quality adjustment factors" means the factors that are used to determine the quality of the crop. The factors are listed in the following table:

Factor	Description
1. Moisture	The moisture content of the crop at the time of harvest.
2. Test Weight	The weight of a given volume of the crop.
3. Foreign Matter	The amount of foreign matter in the crop.
4. Damaged Kernels	The amount of damaged kernels in the crop.
5. Other	Other factors that may affect the quality of the crop.

The quality adjustment factors are used to determine the net production to count. The net production to count is the production of the crop after the quality adjustment factors are applied.

Any production qualifying for quality adjustment, that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the quality adjustment factors.

The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Any production qualifying under section B or C (except for section C3) that is sold**** to other than a disinterested third party**, or that is not sold 60 days after the end of the insurance period, shall be adjusted under the quality adjustment factors.

Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

For production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the quality adjustment factors.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Unit: 1000 bushels
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Bradford (015)

- a. $\frac{Yield_{C1} + Yield_{C2} + Yield_{B}}{Total_{C1+C2+B}} \times 100$ = DF
- b. Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- c. $\frac{Yield_{C1} + Yield_{C2} + Yield_{B}}{Total_{C1+C2+B}} \times 100$ = DF

1.

1. OPTION TO DELAY CLAIM SETTLEMENT

- a. On the date of final inspection for the unit, if any of your unsold**** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- b. $\frac{Yield_{C1} + Yield_{C2} + Yield_{B}}{Total_{C1+C2+B}} \times 100$ = DF
- c. $\frac{Yield_{C1} + Yield_{C2} + Yield_{B}}{Total_{C1+C2+B}} \times 100$ = DF
- d. For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- e. $\frac{Yield_{C1} + Yield_{C2} + Yield_{B}}{Total_{C1+C2+B}} \times 100$ = DF
- f. $\frac{Yield_{C1} + Yield_{C2} + Yield_{B}}{Total_{C1+C2+B}} \times 100$ = DF
- g. $\frac{Yield_{C1} + Yield_{C2} + Yield_{B}}{Total_{C1+C2+B}} \times 100$ = DF

2.

2. SECTION 14(e) OF THE BASIC PROVISIONS

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

2. If the level of a substance or condition is less than the maximum allowable, adjust the production in the following manner.
 - a. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of all insurable quality deficiencies, and that value divided by the local market price.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above, plus the applicable DF for the substance or condition, plus the applicable DF for the substance or condition.
 - iv. For unsold production containing all other mycotoxins or substances or conditions prior to 60 days after the calendar date for the EOIP (unless you elect to delay settlement as specified in the General Statements above), added to the applicable DFs included in sections A, or B2 above.
 - v. For unsold production containing all other mycotoxins or substances or conditions 60 days after the calendar date for the EOIP, the DFs will be .500, plus the applicable DF for the substance or condition.
 - b. If the level of a substance or condition is less than the maximum allowable, the DF will be:
 - i. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - ii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B2 above.
 - iii. If the level of a substance or condition is less than the maximum allowable, the DF will be the sum of the applicable DFs included in sections A or B3 above.

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 0000
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Bradford (015)

2. If you do not destroy (or refuse to destroy) production in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - a. $\frac{\text{Local Market Price} - \text{Local Market Price}}{\text{Local Market Price} - \text{Local Market Price}}$ of the pre-established DFs.
 - b. $\frac{\text{Local Market Price} - \text{Local Market Price}}{\text{Local Market Price} - \text{Local Market Price}}$
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.
3. Grain that is not destroyed (or refused to be destroyed) in a manner acceptable to us, such production to count is no longer considered to be zero market value and will be adjusted as follows:
 - a. $\frac{\text{Local Market Price} - \text{Local Market Price}}{\text{Local Market Price} - \text{Local Market Price}}$ of the pre-established DFs.
 - b. $\frac{\text{Local Market Price} - \text{Local Market Price}}{\text{Local Market Price} - \text{Local Market Price}}$
 - c. For production in Section C1 or C2, such production will not be adjusted for any quality deficiencies listed in Section C.

*	%Local Market Price - As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party - A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value - Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold - Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold - Grain that does not meet the definition of %Sold.
