General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Sections 17(f)(8)(i)(E), 17(f)(8)(ii), and 17(f)(8)(iii) of the Basic Provisions do not apply for the 2026 crop year. New breaking acreage will not be eligible for prevented planting coverage the initial year.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Premium

In accordance with section 6 of the Small Grains Crop Provisions, a reduced premium rate is provided for acreage intentionally destroyed before harvest by grazing or other means. To qualify for the reduced premium rate you must notify your agent no later than February 15.

Insurance Availability

Any fall planted acreage on which seed is spread onto the soil surface by any method (e.g. airplane or otherwise broadcast seeded) and is subsequently mechanically incorporated into the soil, will be insurable only if you request an inspection for this acreage within 72 hours after the final planting date or within 72 hours after you complete incorporating the seed if you plant in the late planting period, and we agree in writing that the acreage has an adequate stand to produce the yield used to determine your production guarantee. No coverage will be provided if an adequate stand is not established within 30 days after the end of the late planting period or within 30 days after the final planting date if no late planting period is applicable. Insurance will attach to acreage with an adequate stand on the date the acreage is inspected.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	County: Comal (091)
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	

- *9 To be eligible to insure your acreage under the Organic (Certified) practice you must provide evidence that you have successfully planted the requested organic crop for a minimum of three years. In one of those three years you must have successfully harvested and marketed the crop as organic and the yield you produced must be at least 50% of the current organic T-Yield. If you do not have such documentation, the acreage may only be insured under the Organic (Transitional) practice offered in this county.

In lieu of the provisions in section 22(a) of the Basic Provisions that says "[h]owever, unless specifically required by policy provisions, you must not obtain any other crop insurance authorized under the Act on your share of the insured crop," you may obtain a Small Grains Crop Insurance policy and an Annual Forage policy on the same acreage that is planted with the intent of grazing the crop first and then later harvesting the crop for grain.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

Net Production: The net production of a crop is the total production of the crop, less the production of the crop that is lost due to factors such as weather, pests, or other causes. Net production is determined by subtracting the production of the crop that is lost from the total production of the crop.

Qualifying Production: Qualifying production is the net production of a crop that is sold to a disinterested third party within 60 days of the end of the insurance period. Qualifying production is determined by subtracting the production of the crop that is lost from the total production of the crop.

Quality Adjustment: Quality adjustment is the adjustment made to the net production of a crop based on the quality of the crop. Quality adjustment is determined by multiplying the net production of the crop by the quality adjustment factor.

Quality Adjustment Factor: The quality adjustment factor is the factor used to adjust the net production of a crop based on the quality of the crop. The quality adjustment factor is determined by the quality of the crop and the quality adjustment factor table.

Quality Adjustment Table: The quality adjustment table is the table used to determine the quality adjustment factor based on the quality of the crop. The quality adjustment table is located in the Special Provisions section of the policy.

Quality Adjustment Statement: The quality adjustment statement is the statement used to determine the quality adjustment factor based on the quality of the crop. The quality adjustment statement is located in the Special Provisions section of the policy.

Quality Adjustment Statement Table: The quality adjustment statement table is the table used to determine the quality adjustment factor based on the quality of the crop. The quality adjustment statement table is located in the Special Provisions section of the policy.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use of AIP: AIP D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Comal (091)

- Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

A

1. OPTION TO DELAY CLAIM SETTLEMENT

- On the date of final inspection for the unit, if any of your unsold**** production qualifies for quality adjustment under sections B and/or C1 or C2a ii and C2a iv below, your claim will be settled using the applicable DF's for unsold production unless you elect in writing to delay settlement of your claim for up to 60 days after the calendar date for the EOIP.
- Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.
- Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.
- For any production sold**** to other than a disinterested third party**, or that is not sold 60 days after the calendar date for the EOIP, we will settle your claim using the applicable DFs.
- Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.
- Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.
- Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

A

2. SECTION 14(e) OF THE BASIC PROVISIONS

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

3. EXTENSION OF TIME TO HARVEST

Unless the AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under sections A, B, and C must be obtained in accordance with the Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 100W^100C^100D
Date: 6/17/2025	Plan: Yield Protection (01)	County: Comal (091)
	Revenue Protection (02)	
	Revenue Prot with Harvest Price Exclusion (03)	

(EOIP).

We determine you are prevented from harvesting by the calendar date for the EOIP due to an insurable cause of damage that occurred during the insurance period and we allow an extension of time to harvest, the time to determine insurable quality deficiencies will also be extended to 60 days after the EOIP. All samples for QA

and all samples for A¹ must be submitted to the RIV before the calendar date for the EOIP plus 60 days. If you submit a sample for QA or A¹ after the calendar date for the EOIP plus 60 days, your crop until AFTER 60 days after the calendar date for the EOIP, and your production qualifies for quality adjustment under sections B1, C1a or C2a i, you will be allowed 30 days after harvest to market your grain and receive an RIV unless the production qualifies solely under Section A, in which case, only the DF(s) in Section A claim for indemnity not later than the earlier of 60 days after harvest, or 60 days after the date we determine the crop could have been harvested and you did not

I ĖÖÒŠĲÁŦ ÒÈÜÜÒȚ ÒÞVÁÚÁÇËȚ ÂŮUÜÒÖÁŮUÖWÔŮ

If you elect to delay measurement of farm stored production as provided in the Basic Provisions, all samples of farm stored production used to determine insurable quality deficiencies must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the EOIP, otherwise such production will not be eligible for a quality adjustment.

5. FAIR CONSIDERATION TO DELIVER TO DISTANT MARKETS

On 8/1/2018, the following information was received from the Department of the Treasury, Internal Revenue Service, regarding the sale of the property to a third party, fed, utilized in any other manner, or when a pre-established DF is applicable.

6. ZERO MARKET VALUE

On the date of final inspection for the unit, any production which due to insurable causes is determined to have zero market value***, such production will not be

market value, except for production fed or used in any other manner.

7. REDUCTION IN VALUE (RIV):

ÜQ•Á ~ •œ^Á^æ[} æ|^Ê• ~ æ|Ê æ&•ç { æ^Ê[ÄÜÁ ā|Á^Á æ^Á|Á&^ çāÁ^Á•Á/Á^Á ^Á K

- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. Any other costs associated with normal harvesting, handling, and marketing of your production.
 - i. RIVs cannot be used in combination with chart DFs.
 - ii. $RIV_{local} = \frac{RIV_{distant} - RIV_{local}}{1 + \frac{RIV_{distant} - RIV_{local}}{RIV_{local}}}$ production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
 - iii. $RIV_{local} = \frac{RIV_{distant} - RIV_{local}}{1 + \frac{RIV_{distant} - RIV_{local}}{RIV_{local}}}$ exceed the RIV before conditioning.
 - iv. $RIV_{local} = \frac{RIV_{distant} - RIV_{local}}{1 + \frac{RIV_{distant} - RIV_{local}}{RIV_{local}}}$

SECTION A - DISCOUNT FACTOR CHARTS

[illegible]

GRADE DISCOUNT:

[illegible]

- “ U.S. Grade No. 5 for Kernel Damage - 10.01% to 15.0%
- “ U.S. Grade No. 5 for Total Defects - 12.01% to 20.0%
- “ U.S. Sample Grade for Kernel Damage - 15.01% and above
- “ U.S. Sample Grade for Total Defects - 20.01% and above

Only one DF for grade can be applied.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	U.S. Grade: Hard Red Winter (HRW)
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Comal (091)

TEST WEIGHT DISCOUNT:

For all Spring and White Club wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 48 lbs. to 50 lbs.; U.S. Sample Grade . 48 lbs. and below):

Test Weight Pounds	DF
50 and above	None
49.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Soft Red Winter (SRW) and Soft White Winter (SWW) wheat will be discounted for low test weight as follows (U.S. Grade No. 5 for Test Weight . 48 lbs. to 51 lbs.; U.S. Sample Grade . 48 lbs. and below):

Test Weight Pounds	DF
51 and above	None
50.99-44	See Quality Adjustment Tab for Discount Factors
Below 44	See Section B

For all Hard Red Winter (HRW) and Hard White Winter (HWW) wheat will be discounted for excessive Defects as follows:

For all Soft Red Winter (SRW) and Soft White Winter (SWW) wheat will be discounted for excessive Defects as follows:

SRW, HRW, and HWW classes of wheat will be discounted for excessive Defects as follows:

Defects %	DF
15 and below	None
15.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

SWW, HRS, and DUM classes of wheat will be discounted for excessive Defects as follows:

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	Use: 1000/1000 D
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Comal (091)

Defects %	DF
10 and below	None
10.01-35	See Quality Adjustment Tab for Discount Factors
Above 35	See section B

For all classes of wheat, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

SPROUT DAMAGE DISCOUNT FOR ALL CLASSES

For all classes of wheat, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below, the production is not eligible for any additional discount factor in the Falling Number Discount Table or the Sprout Damage Discount Table below.

Sprout Damage Percent	DF
10 and below	None
10.01 - 15.0	See Quality Adjustment Tab for Discount Factors

DFs for Aflatoxin:

Aflatoxin Range	DF
0.0 - 300.1 ppb	See Quality Adjustment Tab for Discount Factors
300.1 ppb & above	See C3 below

3. For production that has an Aflatoxin level in excess of 300 ppb, a Vomitoxin level in excess of 10 ppm, or any other substances or conditions qualifying under Section C having a level exceeding the maximum amount allowed or when the edible portion of a crop is exposed to flood waters, a claim will not be allowed for you to submit your claim for indemnity, following the date we determine the production was sold, fed, utilized in any other manner, or destroyed.
 - a. If the level of Aflatoxin is less than 300 ppb, the level of Vomitoxin is less than 10 ppm, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
 - b. If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
 - c. If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is not sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
 - d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of the insurance period, such production will not be adjusted for any quality deficiencies listed in Section C.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is not sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.

1. If the level of Aflatoxin is 300 ppb or more, the level of Vomitoxin is 10 ppm or more, and the production is not sold, fed, utilized in any other manner, or destroyed, the claim will be adjusted based on the quality deficiencies listed in Section C.
