General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

In accordance with the definition of "production reporting date" in the Basic Provisions, if you submit an application for insurance after the winter sales closing date or land is added after the production reporting date on which the spring type will be planted, the production reporting date will be the earlier of the acreage reporting date or 45 days after the spring sales closing date.

Date

In lieu of section 7 of the Small Grains Crop Provisions, the end of insurance period for winter-type acreage will be August 31 immediately following planting.

*5 In lieu of the definition of late planting period in section 1 of the Basic Provisions, for type winter only, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

6. ZERO MARKET VALUE

7. REDUCTION IN VALUE (RIV):

- a. Moisture content;
- b. Damage due to uninsured causes;
- c. Drying;
- d. Handling;
- e. Processing; or
- f. If a lower RIV is available for production sold at a distant market, the RIV at the distant market may be increased by the fair consideration to deliver the production to the distant market, provided the resulting RIV does not exceed the RIV in your local marketing area.
- g. The RIV and local market price* are determined on the date such quality adjusted production is sold to a disinterested third party.

Special Provisions

2026 and Succeeding Crop Years

Year: 2026

Commodity: Barley (0091)

U.S. Department of Agriculture

Date: 6/17/2025

Plan: Yield Protection (01)

County: Elk (047)

Revenue Protection (02)

Revenue Prot with Harvest Price Exclusion (03)

- ii. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.
- b. For production containing Aflatoxin or any other substances or conditions (except for production containing Vomitoxin as detailed in C3 a above), the DF will be:
 - i. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions, into commercial storage prior to being sold.
 - ii. .500 for production that was in on-farm storage and was later sold, was in on-farm storage and was transported to commercial storage and later sold, less any applicable discounts or deductions.
- c. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions, unacceptable to us, such production will not be adjusted for any quality deficiencies listed in Section C.
- d. If production qualifying under Section C3 remains unsold, or is not destroyed, more than 365 days after the calendar date for the end of insurance period, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.

SECTION D - ZERO MARKET VALUE PRODUCTION

If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.

1. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.
2. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions, and will be adjusted as follows:
 - a. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.
 - b. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.
 - c. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.
3. If the producer has a loss in the crop year, the producer shall be entitled to a payment based on the difference between the actual yield and the guaranteed yield, multiplied by the applicable price, less any applicable discounts or deductions.

Special Provisions

2026 and Succeeding Crop Years

Year: 2026	Commodity: Barley (0091)	Use: 0000
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	County: Elk (047)

*	%Local Market Price-As defined in the applicable Basic, Crop, or these Provisions.
**	%Disinterested third party-A person or business who does not routinely purchase production for resale or for feed will not be considered a disinterested third party if the RIVs applied by the buyer are not reflective of the RIVs in the local market.
***	%Zero market value-Occurs when no buyers in your local area are willing to purchase the production and fair consideration to deliver production to a market outside your local marketing area (distant market) is equal to or greater than the production's value at the distant market or when acreage of an insured crop in which the edible portion of the crop has been exposed to flood waters.
****	%Sold-A Grain is considered sold on the date that final settlement between the buyer and seller has occurred and title of the grain has passed from the seller to the buyer.
*****	%Unsold-A Grain that does not meet the definition of %Sold.
