General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop and will be considered a crop planted for harvest.

Date

In lieu of the definition of late planting period in section 1 of the Basic Provisions, please refer to the End Of Late Planting Period Date.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Special Provisions 2026 and Succeeding Crop Years

Year: 2026	Commodity: Wheat (0011)	County: Sauk (111)
Date: 6/17/2025	Plan: Yield Protection (01) Revenue Protection (02) Revenue Prot with Harvest Price Exclusion (03)	

In addition to Section 35 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Quality

GENERAL STATEMENTS:

For the purpose of this section, the following definitions apply:

Quality Adjustment: The process of adjusting the production to count based on the quality of the production. The quality adjustment factors are considered in determining production to count.

Net Production: The production to count minus the production that is not counted (e.g., production that is not sold or is sold to a disinterested third party).

Qualifying for quality adjustment: Production that does not contain substances or conditions that are injurious to human or animal health, shall be adjusted under the quality adjustment factors.

Harvest Extension: The AIP grants an extension of time to harvest as specified below, the samples of production used to determine insurable quality deficiencies under Sections A, B and C must be obtained in accordance with this Quality Adjustment Statement, but not later than 60 days after the calendar date for the end of the insurance period.

Production sold to other than a disinterested third party: Any production qualifying under section B or C (except for section C3) that is sold to other than a disinterested third party, or that is not sold 60 days after the calendar date for the end of the insurance period.

Production qualifying under Sections B or C: Production qualifying under Sections B or C (except for production qualifying under section C3) that is unsold 60 days after the calendar date for the EOIP, an automatic 30 day extension will be allowed only for the purpose of submitting your claim for indemnity, unless an extension of time to harvest has been granted or a delay in measurement of farm stored production has been elected under the general statements below.

Production qualifying for quality adjustment: Production qualifying for quality adjustment containing substances or conditions that are injurious to human or animal health will be determined in accordance with the quality adjustment factors.

- Production qualifying for quality adjustment under Section A, shall be adjusted under the quality adjustment factors.
- Sections C1 or C2 and Section B below, the DF will be determined by adding the applicable DFs from Section B to the applicable DFs from Sections C1 or C2.
- Production qualifying for quality adjustment under Section B, shall be adjusted under the quality adjustment factors.
