General

In accordance with section 3(d) of the Guaranteed Production Plan of the Fresh Market Tomato Crop Insurance Provisions, the stages and production guarantees for ROMA and PLUM type tomatoes will be the same as specified in section 3(b)(1).

In accordance with the definition of potential production in section 1 and section 13(c)(1)(iii)(B) and (c)(2)(ii)(B) of the Guaranteed Production Plan of the Fresh Market Tomato Crop Provisions, the classification size for the following tomatoes is as follows:

1. ROMA and PLUM types- a minimum of 1.5 inches in diameter.

Total production to count for ROMA and PLUM type tomatoes for a unit will include all harvested and appraised production determined to be marketable.

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Price

In accordance with section 12(b)(1) and 12(b)(2) of the Guaranteed Production Plan of the Fresh Market Tomato Crop Insurance Provisions, the maximum amount of the replanting payment per acre will be the lesser of the actual cost of replanting; or

1. The amounts shown in the Prevented Planting and Replanting Payment tab;

2. Multiplied by your price election; and
3. Multiplied by your insured share.

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ñyesò exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);

2. Crop Provisions; or

3. CPA.

When the contract price code is ñyesòon the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and

2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.

Insurance Availability

In accordance with section 9(a)(2)(ii) and 9(a)(2)(iii) of the Guaranteed Production Plan of Fresh Market Tomato Crop Provisions, insurance will not attach to any acreage on which tomatoes are grown for more than three consecutive crop years, unless the same acreage: (1) is rotated to a crop other than tomatoes, bell peppers, eggplant, or tobacco; or (2) is treated with a fumigant or nematicide before planting tomatoes a fourth consecutive crop year.

In addition to section 8(e)(4) of the Guaranteed Production Plan of Fresh Market Tomato Crop Insurance Provisions, ROMA and PLUM Tomatoes will be insurable.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at https://www.rma.usda.gov/en/Topics/Cover-Crops.
