**General**

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

**Type**

*2 Brazilian varieties include: Dwarf Brazilian and Apple bananas.

*3 Cavendish varieties include: Chinese, Williams, Valery, Grand Nain, Bluefields, Dwarf Bluefields, and other bananas not considered Brazilian.

**Date**

Early Harvest is the period between June 1 and September 30. Mid Harvest is the period between October 1 and January 31. Late Harvest is the period between February 1 and May 31 of the following year.

**Price**

Contract price:

You may use a contract price to determine your insurance guarantee when a contract price code of ñyesò exists on the Prices tab in the actuarial documents for the crop, type, and practice.

Contract price authority (i.e., rules governing the use of contract prices and the method to determine a contract price) will be found in one of the following three places, listed in priority order:

1. Special Provisions, separate from this statement, which authorizes the use of the Contract Price Addendum (CPA);

2. Crop Provisions; or

3. CPA.

When the contract price code is ñyesò on the Prices tab for the crop, type, and practice:

1. If the Crop Provisions or Special Provisions provide the contract price authority, your price will be determined in accordance with the Crop Provisions or Special Provisions. If neither the Crop Provisions or Special Provisions provide contract price authority, your price will be determined in accordance with the CPA; and

2. The Crop Provisions or Special Provisions may only provide contract price authority for specific types or practices. When this occurs, the CPA may be used to determine a contract price for other types or practices where contract price authority is not provided through the Crop Provisions or these Special Provisions.
