Statement

Special Provisions of Insurance

2021 and Succeeding Crop Years

Year: 2021

Commodity: Potatoes (0084)

State: Florida (12)

Date: 6/29/2020

Plan: APH (90)

County: Charlotte (015)

General

For the purpose of section 12(d)(1)(iii) of the Southern & Central Potato Crop Provisions, the date potatoes would have reached full maturity will be 100 days after the date of planting or replanting.

Written Agreements

In accordance with section 8 of the Basic Provisions, acreage planted and managed with the intent to be harvested as creamer type potatoes may be insured by written agreement.

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop.

Type

- *5 Varieties insurable as Group A: LaChipper, Mainstay, Sebago, Superior, Yellow Star, Fabula, Satina, Vivaldi, Yukon Gold, and all red varieties. Additionally, other varieties of table stock potatoes may be insurable under the Group A Type by written agreement provided that: 1) The variety is documented to be a table stock variety which is adapted to the area and able to produce at least the county T-Yield for Group A type; and 2) The insured controls a packing facility capable of packing, grading, and handling potatoes for the fresh market or has a packing contract executed with a table stock potato packer whereby the packer agrees to accept and pack the production specified in the contract.
- *6 Varieties insurable as Group B: Russets, chipper (processing) varieties, and all white and yellow varieties for which coverage is not provided for in Group A.

Date

- *7 Insurance will attach only on potatoes planted during the period of December 1 - January 10, and the calendar date for the end of insurance period for this county program is June 5.
- *8 Insurance will attach only on potatoes planted during the period of September 15 - October 15, and the calendar date for the end of insurance period for this county program is February 15.

Special Provisions of Insurance

2021 and Succeeding Crop Years

Year: 2021

Commodity: Potatoes (0084)

State: Florida (12)

Date: 6/29/2020

Plan: APH (90)

County: Charlotte (015)

Price

Only one price election percentage will be applicable for all potato types insured under one potato policy. For example, if you elect a price election for one type equal to 80% of the established price, the price election applicable for other potato types must also be 80% of the established price.

In the event of loss or damage on a unit for which more than one price election is applicable, we will settle your claim by:

- (a) Multiplying the insured acreage of each type (161/261) by the production guarantee;
- (b) Multiplying each result by the price election for the applicable type;
- (c) Adding these dollar values;
- (d) Multiplying the production to count of each type by the price election for that type;
- (e) Adding these dollar values;
- (f) Subtracting the result of step (e) from the result of step (c); and,
- (g) Multiplying the result by your share.

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

Insurance Availability

Nematode damage will not be an insurable cause of loss unless a recommended preplant nematocide treatment of the soil is administered for the current crop year.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Quality

With regard to Grade Inspections and the respective U.S. Grade Standard (i.e. Processing, Chipping, Seed and all other Potatoes), the only size modifications recognized are those instituted by State or Federal Marketing Orders.
