	Area Revenue Protection (05)	
	Area Revenue Protection - Harvest Price Exclusion (06)	

#### Statement

##### General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

In lieu of section 6(b) of the Basic Provisions, you may only choose a protection factor of 120 percent for catastrophic risk protection. However, in accordance with section 8(m) of the Basic Provisions, if you do not submit a production report to us by the production reporting date specified in the actuarial documents, your protection factor for your catastrophic risk protection policy in the following crop year will be limited to the lowest protection factor available.

Refer to the Prices and Yields tab of these actuarial documents for the date final county revenues and final county yields will be determined. The payment will be issued no later than 30 days after final county revenues and final county yields are determined.

##### Insurance Availability

In addition to Section 29 of the Basic Provisions, if you elect to obtain a Farm Service Agency Graze-Out Payment for acres of this crop grazed by livestock and not otherwise harvested, you are not eligible for an indemnity.

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.
