

Special Provisions of Insurance 2021 and Succeeding Crop Years

Year: 2021	Commodity: Corn (0041)	State: Indiana (18)
Date: 6/29/2020	Plan: Margin Protection (16) Margin Protection with Harvest Price Option (17)	County: Parke (121)

Date

In addition to the provisions of section 34(a)(3) of the Basic Provisions, the earliest sales closing date for policyholders who have a base policy is the sales closing date of the base policy and not Margin Protection. All other terms of section 34(a)(3) remain in effect.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

- *5 Seed is hybrid seed corn. Only female acres planted for the commercial production of hybrid seed corn is insurable. Hybrid seed corn must be grown under a hybrid seed corn processor contract executed on or before the acreage reporting date. Male acreage planted for the commercial production of hybrid seed corn is not insurable.

In addition to section 2(a)(1) of the Margin Protection Corn Crop Provisions, white and waxy types are only insurable under MP as the grain type if they are insured as the grain type under the base policy.

In lieu of section 2(h) of the Margin Protection plan provisions, insureds with MP may not elect SCO on the Base policy. If SCO is elected, the SCO election will be void.
