Special Provisions of Insurance

2021 and Succeeding Crop Years

Year: 2021	Commodity: Potatoes (0084)	State: Alabama (01)
Date: 8/13/2020	Plan: APH (90)	County: De Kalb (049)

General

Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

Written Agreements

- *2 In accordance with section 8 of the Basic Provisions, acreage planted and managed with the intent to be harvested as creamer type potatoes may be insured by written agreement.

General

Corn planted on acreage following a crop that has been prevented from being planted will not be considered a cover crop.

Type

- *4 Recommended and adapted yellow skinned varieties such as Yukon Gold, will be considered insurable as the white type and will be designated as the white type for the purposes of this policy.

Price

If a contract price is available as shown in the actuarial documents, you may elect to have your price election determined in accordance with the Contract Price Addendum (CPA). If the crop provisions or special provisions provide a method to determine a contract price your price election will be determined in accordance with the crop provisions or special provisions and the CPA does not apply.

Insurance Availability

Insurance shall attach to a crop following a cover crop when the cover crop meets the definition provided in the Basic Provisions, was planted within the last 12 months, and is managed and terminated according to NRCS Cover Crop Termination Guidelines. The Guidelines include information on cover crops and crop insurance, Good Farming Practices for cover crops, and termination information and exceptions, which can be found at <https://www.rma.usda.gov/en/Topics/Cover-Crops>.

Quality

With regard to Grade Inspections and the respective U.S. Grade Standard (i.e. Processing, Chipping, Seed and all other Potatoes), the only size modifications recognized are those instituted by State or Federal Marketing Orders.
